This year in U. S. History, we will cover topics ranging from the first Americans to European exploration to colonization and settlement in America as well as the American Civil War and Reconstruction. History is not simply a study of dead people and past events. Looking into the past and studying where we have been as a country can help us understand where we are going and the best way to get there. We will be watching all or part of several films and you can find a list of those movies on the U. S. History's disclosure addendum on the school's website sojomiddle.org.

Kindness. Courage. Respect.
